

Beef workshop

22 September 2022 9.30 – 15.30

NAV

Nordisk Avlsværdi Vurdering • Nordic Cattle Genetic Evaluation

Beef workshop

The goal with the one-day workshop is to inform and discuss about:

- NAV pure beef evaluation including joint Nordic subindices
- Genomic prediction for beef cattle
- Future breeding plans for beef cattle

NAV

Nordisk Avlsværdi Vurdering • Nordic Cattle Genetic Evaluation

Beef workshop 22 September

9.30 Welcome and introduction (Lars Inge Gunnarsson)

Genomic prediction beef cattle – with focus on practical results

- 9.40 Genomic prediction of Finnish beef cattle breeds, Anna-Maria Leino
- 10.05 Genomic prediction of Swedish Charolais and Hereford, Freddy Fikse
- 10.30 Genomic prediction of beef cattle based on genotyped dairyxbeef calves a possibility? Gert Pedersen Aamand
- 10.40 Interbeef genomic prediction a possibility? Gert Pedersen Aamand
- 10.50 Coffee break

NAV

Nordisk Avlsværdi Vurdering • Nordic Cattle Genetic Evaluation

Beef workshop 22 September

How does future breeding plans for beef cattle used in dairy herds and beef herds look like?

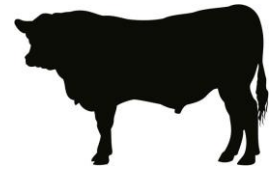

- 11.05 Future breeding plans from a Beef cattle breeders' point of view, Per Mårtensson and Johanna Bengtsson
- 11.20 Future breeding plans from an AI company's point of view, Reni Hvam Nielsen
- 11.35 Discussion genomic prediction and breeding plans
- 12.15 Lunch

Nordisk Avlsværdi Vurdering • Nordic Cattle Genetic Evaluation

Beef workshop 22 September

NAV genetic evaluation of beef cattle

- 13.00 NAV pure beef evaluation status, Elisenda Rius-Vilarrasa
- 13.20 Process Joint Nordic sub-indices – status report per breed
- 14.00 Coffee break
- 14.15 Final touch on Nordic sub-indices per breed group
- 15.15 Evaluation and closing
